

HIGH PRESSURE WASHER Variable Frequency Drive

The HL.Skjong variable frequency drive high pressure washer is ideal for removing any type of dirt. This model is designed to ensure professional results, even encrusted dirt and continuous use. The pumps are controlled by an intelligent VFD to ensure precise and efficient control.

- Voltage: 380-480V
- Power: 11kW
- Max. flow: 40l/min
- Max. pressure: 140Bar
- Medium: Fresh water
- Users: 1-3 simultaneous
- Max. water temperature: 45°C
- Reliable and service friendly.
- Min. 3bar inlet pressure
- Max, 8bar inlet pressure
- Min. 50L per minute inlet flow
- Inline professional Mazzone pump, brass head and three ceramic pistons.
- Power Supply: 1 x 3phase 400-440V 25A Type B
1 x 1phase 230V 1A Type B

Its features make it suitable for use in process manufacturing plants, fishing vessels, aquaculture and industry in general. Connections should be made with flexible hoses to reduce noise. The high-pressure washer is supplied with vibration dampers.

Standard for 380-480V, 50-60Hz. Other voltages on demand. Hot water pumps on demand.
